

Appendix

Table 1 – Top three regions with highest age-standardised incidence of laryngeal cancer

Top three regions with highest incidence of laryngeal cancer	Standardised incidence (per 100,000)(%)
Caribbean	4.0
Central and Eastern Europe	3.6
Southern Europe	2.9

Table 2 – Top three regions with the highest age-standardised death rates from laryngeal cancer

Country	Standardised incidence (per 100,000)(%)
Caribbean	2.1
Central and Eastern Europe	1.9
Central and South Asia	1.7

Table 3 – Top three countries with the highest AAPC from laryngeal cancer

Country	Standardised incidence (per 100,000)(%)
Japan	6.0
Switzerland	5.6
Czech Republic	3.3
